WANT VOLUNTEERS FOR FOOD TRAINS

Strike Situation in New York Still Causes Anxiety

CREWS LEAVE TRAINS

Switchmen at Potomac Yards, Adjoining Alexandria, Stick to Their Jobs at Present.

New York, April 12.—Passenger service on railroads affected by the unauthorized strike of yardmen and switchmen which began three days ago still was demoralized here last night. Freight service was virtually at a standstill except for an irregular movement of perishable commodities.

A call went out from railroad offices here last night for volunteers to man freight trains carrying foodstuffs to the city. It was the opinion in railroad circles that with recruits from divisions of the lines not hampered by the strike and with pensioners, clerks and other terminal employes pressed into service for the emergency food trains could be kept moving in sufficient volume to forestall a food famine here.

Inability of railroads to move nonperishable freight may cause a serious shortage of coal among millions of consumers in Greater New York, railroad officials and representatives of New York merchants declared.

Strikers last night apparently were holding their ground in and around New York, while railroad officials were preparing for what they believed would be the crisis today.

Many meetings of strikers were held yesterday, but reporters for all papers except the New York Call, a Socialist daily, were barred. At a meeting addressed by Mayor Hague, of Jersey City, reporters were invited, but at the conclusion of the Mayor's address they were put out of the room.

Twenty engineers employed in the Mott Haven yards of the New York Central joined the strikers last night. Two hundred switchmen and yardmen on the Long Island road met and urged striking members of their local to return to work.

Washington, April 12.—Fifty switchmen employed at the Washington Terminal yesterday afternoon joined the "outlaw" strike which has swept the country from coast to coast.

No notice of the intended walk-out was given the heads of the Terminal Company who said the outlaw strikers numbered almost one-half of the personnel.

It was said there are about 125 switchmen employed at the local yards and while but fifty went out, it was stated that their loss would seriously hamper operations of trains here if it all extended.

Prediction could not be made early last night as to whether the remaining men would join the outlaws, but it

Riddle, of Baltimore. There will be business sessions on Wednesday and Thursday. Spring Gala Week Plans Completed — Great Johnny J. Jones Exposition Will Put on Entire Aggregation

The Alexandria Elks gala week plans are fast taking shape, and during this week will be rounded in to action. When the Johnny J. Jones expositions arrive Sunday and begin to settle their array of "joyful" equipment and people into place in the Baggett field for the big show all next week.

The Johnny J. Jones exposition today constitutes the largest aggregation of out door amusement features ever brought together under one management. The various attractions, with the exception of four, aer entirely new and said to be most novelistic and interesting, and are endowed with educational and interesting features, as well as the lighter attractions that simply are constructed to amuse.

Frank M. Petit, special agent for the big joy giving exposition, also an Elk, a member of Charleston, S. C., Lodge a guest of the Monticello Hotel, stated this morning that every attraction carried by Mr. Jones is "fit for the whole family."

The winter quarters of Johnny J. Jones exposition are located at Orlando, Florida. The opening stand for the season of 1920, started off there, February 9, on the occasion of the annual fair of "The sun tropical mid-winter fair." Ed. R. Salter, Mr. Jones, publicity man, advises they are contracted the present season to play all the big expositions of Western Canada, also the world famed Toronto exhibition. The Western Fair, of London, Ont., and all the larger Southern States and Tri-states fair.

MICHAEL A. AHERN CALLED BY DEATH

Retired Merchant Victim of Angina Pectoris—Dies at 3 P. M.

FUNERAL WEDNESDAY

Mr. Ahern Retired From Active Participation in Business Affairs Three Years Ago.

Michael A. Ahern, seventy-three years old, a retired merchant, died at 3 o'clock this morning at the residence of his cousin, Miss Katherine Ahern, 915 Prince street, with whom he made his home.

Death was due to angina pectoris from which he had been a sufferer for several years. The deceased was unmarried.

Mr. Ahern was stricken about 1 o'clock this morning and lingered but two hours. The deceased was able to be about yesterday and attend services at St. Mary's Church in the morning. He, however, had been in failing health since the death of his brother, John P. Ahern, who died in February, 1917.

He was a son of the late John Ahern and succeeded his father in business which he conducted at the corner of Prince and West street, retiring from active participation in business affars May 1, 1917 and devoting his time to looking after his private interests.

Mr. Ahern was one of Alexandria's best known residents and enjoyed the confidence and esteem of all with whom he came in contact. He never aspired public office, al-

Detrain Here.

Busy Scenes at Union Station Owing to Freight Congestion at Washington Terminal

Owing to the freight congestion at the Washington terminal in handling the baggage of passengers most of the passengers from the south and west arriving in Alexandria are detraining at the Union station here and taking the electric trains to Washington.

It was explained at the union station this morning that this is not obligatory on the part of passengers, although passengers are being advised that they will be subject to delay otherwise. The result has been that practically all passengers, both Pullman and day coach, are detraining at the station here and taking what baggage they can handle and going to Washington by electric cars.

Union station here has taken on a busy aspect since this was started last night and, more persons during the past 12 hours have detrained at union station than probably ever before in that space of time.

Passengers who detrain here and whose destination to points further north than Washington simply go to the union station in Washington and their baggage follows them later on. Some passengers going south and west have come to Alexandria to secure their tickets.

DISORDERLY YOUNGSTERS

A disturbance Saturday night at the carnival now exhibiting in Alexandria caused some excitement for a time until the police, aided by the military police, brought the trouble to an end. It was alleged that boys cut one of the ropes supporting a tent. During the row a jitney driver drew a pistol and threatened to shoot. He was quickly disarmed and placed under arrest. After reaching the station house he was made to leave one hundred dollars collateral for his appearance in the Police Court. His case will come up this afternoon or tomorrow.

The above incident will bring to mind the murder of a young Alexandrian by a circusman in the early fifties. It was alleged that the victim of the showman's brutality had been one of a bevy of youngsters who had amused themselves by cutting ropes of the main tent.

It was one of the most brutal murders ever recorded in Alexandria and the perpetrator escaped justice, as he could not be identified The boy's brains were beaten out after he had been knocked down. The weapon used was a swingletree. This case is reproduced as a warning to mischievous youngsters who delight in playing practical jokes at the expense of others. Parents of such might also take this hint and see that their offspring are in safe places after dark.

"SIX DAYS SHALT THOU LABOR"

The Whitaker Paper Company of Cincinnati in a circular says:

"The same God who laid upon the children of Israel the injunction to observe the sancitity of the Sabbath proclaimed also the holiness of toil and declared that labor is the law of salvation. In this crucial period of human history it behooves us all to give heed not to one-seventh of this commandment only, but to the six-sevenths with which the Almighty glorified toil and translated work into a form of worship.

There is nothing in this commandment that we of the present day are warranted in interpreting as Divine Sanction for shorter hours or artificial restriction of production. "Six days shalt thou labor"—not six hours a day, not even eight hours a day, but so many hours as may be reqiured to do all thy work. So long as production lags behind the needs of a hungry world, all our work is not done, and every hour wrested from the working schedule of the week is an hour of violence to humanity and of blasphemy to God.

"If the executives, the sales managers, the bookkeepers, the stenographers and the clerks, the advertising men and those of the sales force do not work with a keener sense of the obligations that rest upon them—if those in the high places do not make their brains more productive, small license shall they have for casting the stone of opprobrium at the ignorant, the brutal and the reactionary in the ranks of organized or unorganized physical labor."

STURGEON A DELICACY

Captain David Melvin, of Chincoteague, caught a roe sturgeon recently which sold for $360. The 80 pounds of roe brought $3.50 a pound and the 200 pounds of meat 40 cents a pound.

Many old readers of the Gazette will recall the time when average size sturgeon sold in Alexandria at from 50 cents to $1 each. The roe, which now brings $3.50 a pound, was shoveled into the river or used as bait for anglers.

ATTEMPTS SUICIDE

Both are declared last night to be in a precarious condition and attending physicians assert that it is only a matter of a few hours before the youthful wife succumbs to the poison.

Domestic trouble is assigned as the reason for the act.

REBELLION IN LABOR RANKS

Back of the strike of railway men is the personal grievance of one man, John Grunau. He was a yard-master, and operated a work train, which carried employees from Chicago to the railroad yards at Bensonville. A passenger coach was added. The railroad's officials claim that a regular conductor there by became a necessity, and Grunau was displaced. He organized a rebellion, and out of that rebellion the strike grew. The presidents of the railway brotherhoods pronounced the strike illegal. It has been conducted, therefore, in defiance of their orders.

The manner in which it has been carried from Chicago into other cities shows very clearly that the strikers as a rule either do not know or do not care what it is all about. In many instances—in most of them, probably—the occasion has been seized upon to demand increased wages. It matters little to them that the movement engineered by Grunau is illegal from the standpoint of their own union organizations. They fling principle to the winds and on their own hook call loudly for more pay.

This rebellion, therefore, is a revolt within the ranks of organized labor. The spirit of resistance to the authority of their own leaders has been gathering strength for some time. Radicals have preached it. Revolutionaries have openly boasted that they intended to capture the unions by "boring from within." Leaders—Mr. Gompers among them—have feared the stealthy work of sympathizers with the Reds, the Communists and the I. W. W.'s. Whether fully cognizant of the fact or not, the truth is that the strikers are playing the desperate game of the radicals.

Aside from the great annoyance and losses which the innocent public suffers, the importance of the contest lies in the challenge of union men to the leadership of their own unions. There can be no stable organization that is not under discipline and will not abide by its own rules. Union labor is menaced, not by "capital," not by employers of it, but by its own membership. We witness the spectacle, therefore, not of railroad officials striving to break a strike, but of the chiefs of the railway brotherhoods trying to break it for them. It is a fight between law and order and orderly procedure on the one side and the unrestrained elements of unrest and radicalism on the other.—(Philadelphia Inquirer.

DON'T SUFFER WITH NEURALGIA

Use Soothing Musterole

When those sharp pains go shooting through your head, when your skull seems as if it would split, just rub a little Musterole on your temples and neck. It draws out the inflammation, soothes away the pain, usually giving quick relief.

Musterole is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister.

Many doctors and nurses frankly recommend Musterole for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet—colds of the chest (it often prevents pneumonia). It is always dependable.

was declared probably that they would go out.

Switchmen employed in the Potomac yards stuck to their jobs last night despite the going out of the switchmen of the Terminal Company. A full force was on duty then and a company official stated that the men would continue to work regardless of the action of the Washington switchmen.

Partial suspension of passenger traffic between Washington and Eastern cities resulted last night when more than a hundred yardmen employed by the Washington Terminal Company quit work.

Trains between Washington and New York were curtailed and in some cases consolidated. Not enough cars were brought in by incoming trains to permit the Pennsylvania and the Baltimore and Ohio railroads to conform to the passenger schedule.

There was every likelihood last night that the strike will extend to the freight yards today.

though he on many ocasions had been urged to run for some office by his friends. Practically his entire time he devoted to looking after his business.

The deceased was a son of the late John Ahern and the firm was established in 1866 and was one of Alexandria's leading grocery stores under the direction of the deceased who was associated in business with his brother, the late John P. Ahern.

Many private bequests to private charity were made by Mr. Ahern during his career. He also was an active member of the St. Vincent de Paul Society of St. Mary's Church, and always was eager to push its work of dispensing charity to the worthy poor of the city.

WAR OF TENNESSEE CLANS

Moonshiners in Mountains Wound Six When Rival Families Clash

Sequatchie, Tenn., April 12.—News of a desperate pitched battle in which six men were wounded, two of them seriously, at Grapevine, near Crossville, Tenn., has just been received. The trouble occuring over the alleged theft of an illicit distillery. According to information reaching here a man named Hamilton was operating the still and when it disappeared a lad, A Price, suspected of the robbery was captured and held prisoner by Hamilton. The boy was rescued by three brothers, who covered Hamilton and several companions before they could use their guns. Later, relatives of young Price went on the war path against the Hamilton clan, the clash resulting in the wounding of Jack Hughlin Price, Ernest Price, Jim Hamilton, Bob Davis and Tom Hector.

Hughlin Price was shot in the face with a shotgun and dropped to the ground, but he arose and renewed the battle, a second load of buckshot entered his breast. He again got to his feet and continued to fire, when he was brought down by a pistol ball in his side.

Both Hughlin and Jack Price are in a serious condition.

BOYS WITH PISTOLS

Taking Weapons From Store, They Stage "Hold-Ups" Until Rounded Up By Police

Hagerstown, Md., April 12.—Lloyd Fayler, 11 years old; Paul Alexander 7, and Ira Horn, 13, alleged to be chronic truants, entered Hubert's hardware store in Chambersburg, armed themselves with revolvers and ammunition from the show cases during the afternoon rush and proceeded to terrorize the boys of their neighborhood by hold-up games and reckless firing of the weapons.

Fayler approached his cousin, a son of C. O. Lehman, with a loaded revolver and ordered him to throw up his hands. The Lehman lad being slow to comply with the demand, Faylor pulled the trigger. Fortunately, the hammer struck only an empty shell.

The youngsters were eventually rounded up by the police.

END OF WORLD PUT OFF

There's no need to worry about the end of the world for another 10,000,000 000 years, according to Chas. Nordmann, the well known scinetific writer. Basing his opinion on the latest researches, M. Nordmann states that the rays of the sun, the source of all terrestrial life, should last at least 10,000,000,000 more years, unless there is a collision between the solar body and another planet.

The famous savants, Hermoltz and Henri Poincare, estimated that the sun would have burned itself out within 8,000,000 years, but the recent discovery that the solar mass contains immense deposits of radium means that the sun's heat will have a vastly greater duration.

WILSON OUT AGAIN

Kills "Relapse" Rumors by Spin in His Auto

President Wilson yesterday refuted repeated rumors that he had had a serious relapse by appearing in a big White House automobile with Mrs. Wilson and Dr. Cary T. Grayson and taking a two hour spin along the Speedway and through other parks.

The start was made at 11 o'clock. The President waved cheerily to a group at the west gate of the executive mansion as the car passed through. He appeared in good health, as was the case on his last appearance, more than two weeks since.

Dr. Grayson has emphasized several times lately that the only reason the President had not been going out in an automobile was that he preferred not to, and not because his condition was worse.

Terrible Tortures From Itching Skin Diseases

No Sure Relief Until the Cause Is Removed.

When the blood becomes infested with millions of tiny disease germs that attack the skin, then the fiery irritations and intense itching will remain with you until these germs are removed from the blood.

Genuine relief therefore, can only be expected from a treatment that goes right to the seat of the trouble, and strikes at its cause. Such a remedy is S. S. S., the reliable old blood purifier that kills the germs of disease, and sends a new supply of rich red blood coursing through the veins.

S. S. S. has been used successfully in some of the worst cases of eczema and other skin disorders.

COAL, LUMBER AND BUILDING MATERIALS

W. A. SMOOT & CO. INC.

EXAMINE OUR GRADES
WHEN CONSIDERING PRICES:

With prices on Lumber and other Building Materials at their present levels, there are many items in the lower grades which can often be substituted satisfactorily and at a considerable saving.

We have become so much impressed with the possibilities of doing this to advantage that we are exercising the greatest care in buying only from those mills who pay the closest attention to the manufacture and grading of their lower priced stocks.

We ask our customers to examine these grades when buying as we believe they will find some excellent values, and a knowledge of what a carefully selected lower grade really is will often prevent the buying of a so-called higher grade at a little under the market price for the high grade, when it is actually a lower grade and can be bought as such.

MRS. CUMMINGS NOT RICH

Impression Husband Left Large Estate Erroneous

Hampton, Va., April 12.—The belief that Mrs. Mittie Jester Cummings, who who was acquitted on Wednesday on a charge of murdering her husband, S. Gordon Cumming, on February 7 last, will come into a large fortune, through her legal interest in her husband's estate, is altogether at variance with the facts in the case, it develops.

According to the records in the case, Cumming, although supposed to be a man of considerable means, was found to be heavily in debt at the time of his death. His executor, W. C. Taliaferro, of Hampton, has stated that the estate is barely sufficient to pay these debts in full.

Richard Evelyn Byrd, of Richmond, who defended Mrs. Cumming without charge, both against the divorce proceedings brought under the prenuptial contracts which her husband forced her to sign, as well as against the charge of murder, stated that he hoped to secure for the widow, who is without means, the homestead exemption, to which she is entitled under the Virginia laws. This may amount to about $1,000, the attorney states, and will represent the entire amount of money which Mrs. Cummings will have. Cumming left a $5,000 life insurance policy, in which their son, Kenneth, for whose sake Cumming arranged the strange marriage contract, in order that he might bear his father's name is named as beneficiary. This, Mr. Byrd stated, he planned to invest in Liberty bonds for the benefit of the boy, which, at present market value, will give his mother an income of about $5 a week for his use.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. The pleasant little tablets do the work that calomel does, but have no [illegible] effects. They don't injure the [illegible] like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. Don't take strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place.

Headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "logy" and "heavy." They "clear" clouded brain and "perk up" the spirits. 10c and 25c.

EFFECTS OF STRIKE

Fredericksburg and Potomac Railroads Bans Freight North of Alexandria

Fredericksburg, April 12.—Owing to trouble among the trainmen and yardmen employed at the Potomac yards of the Richmond, Fredericksburg and Potomac Railroad, at Alexandria, an embargo has been placed on all freight consigned to points north of Alexandria. It is thought that this trouble is a result of the strike among yardmen which originated in the Chicago yards, and which has been rapidly spreading to many yards throughout the country. The refusal of the railroad last Thursday to receive freight from this point consigned beyond Alexandria has resulted in a divertment of the traffic between this region and points North to the river boats, which have been virtually swamped by the rush of freight for Baltimore and Philadelphia.

It is thought that the trouble will be remedied in the next few days and the embargo lifted.

FROZEN IN BLOCK OF ICE

Schenectady, N. Y., April 12.—The bones of a woman, with the exception of a head, one arm and both feet, were discovered imbedded in a cake of ice on the banks of the Mohawk river, near Rotterdam Junction, yesterday by three boys.

The police are puzzled as to whether the skeleton, which is covered by an encrustment believed to be quicklime, is that of a murdered woman whose slayer sought to hide his crime by using lime. No trace of the missing members of the body has been found. It is believed by the coroner that the cake of ice brought the skeleton from some point up the river.

Her Friends Were Surprised

So many women suffer from kidney trouble without realizing the cause of their sickness that this letter from Mrs. S. E. Mills, R. R. 5, Xenia, O., will be read with interest. "After taking Foley Kidney Pills I surely feel like a new person. I had been under the doctor's care for several years. People in Yellow Springs were surely surprised to see my improved condition." Symptoms of aching back, stiff and sore joints and muscles, rheumatic pains, blurred vision, puffiness under eyes, should be given prompt attention.
